

Get a record of your coronavirus (COVID-19) vaccination status

Your vaccination status is a record of the coronavirus (COVID-19) vaccinations you have received.

Your status includes your name, date of birth, and any coronavirus vaccinations you have received in Scotland.

- i** Do not contact your GP practice about your coronavirus vaccination status. GP's cannot provide letters showing your coronavirus vaccination status.

The name and address on your vaccination status will match the information on your GP patient record at the time of your first vaccination. If your address on your status is out of date you can still use it for international travel, providing your name and date of birth are correct.

Coronavirus vaccination status can be accessed by anyone who has had a dose of the coronavirus vaccine. This includes those aged 16 and 17 who have had the vaccine.

You cannot be tracked by your vaccination status and your personal information is not shared with third parties.

What your vaccination record can be used for

Your vaccination status can be used to confirm that you have received a dose of the coronavirus vaccine.

Coronavirus vaccination status might be required when you are travelling internationally. There are international plans to issue coronavirus COVID Status Certificates for travel in future, however, nothing has been agreed yet.

You can get access to your coronavirus vaccination status if you chose to travel, and need to provide a record of your vaccination status by the destination country or your travel operator.

It is your responsibility to check what the requirements are to enter the country you are travelling to. It is also your responsibility to check what the requirements are to return

to Scotland from your country of travel.

More about travel requirements (<https://www.gov.uk/foreign-travel-advice>)

What they cannot be used for

Vaccination status is not proof of identity. It does not guarantee access to international travel.

How to get your vaccination status

You can request a printed copy of your vaccination status online or by phoning the COVID-19 Status Helpline.

If you have previously downloaded your coronavirus vaccination status letter, you will need to request a new printed copy.

Request a print version of your record online

You can view and request to print your vaccination status online by logging in using your unique username and password. Your username and password can be found in your coronavirus vaccination appointment letter.

If you have lost or forgotten your username or password, you can create new ones by selecting the 'recover username (https://vacs.nhs.scot/csp?id=recover_username)' or 'forgotten your password ([https://vacs.nhs.scot/\\$pwd_reset.do?sysparm_url=ss_default](https://vacs.nhs.scot/$pwd_reset.do?sysparm_url=ss_default))' options.

If you have never received a unique username, you can sign up for one by using the 'recover username (https://vacs.nhs.scot/csp?id=recover_username)' option.

Once you have signed in, you should select 'vaccination status' which will allow you to view and request to print your coronavirus vaccination record letter.

Your record will be sent by first class post. Make sure you allow plenty of time for your record to arrive before you travel.

-  You should only get your coronavirus vaccination status if you are travelling in the next 21 days. Alternative options to get your vaccination status will be available soon.

gn in to view and print your vaccination status

Request a print version of your record via the helpline

You can also get a copy of your vaccine status by phoning the COVID-19 Status Helpline on 0808 196 8565. The helpline is open every day from 10.00am to 6.00pm.

Your records will also be sent by first class post. Make sure you allow plenty of time for your record to arrive before you travel.

Lost your vaccination status letter

If you lose your vaccination status letter, you should phone the COVID-19 Status Helpline on 0808 196 8565 for a replacement.

- i** Keep your vaccination status letter in a safe place, you will not be able to access a replacement abroad.
